

The Lunenburg Historical commission held their meeting for the month of May on the 4th at the Ritter building. Members McGrath, Lakso, and Boussom were present. The meeting was called to order at 7:00.

There was no correspondence or public comment.

With no new business to discuss, the commission returned to old business.

There has been some delay in getting in contact with the consultant for the Hometown Heroes project, but expected to be set and have more information on the project for the next APDC meeting.

The town survey is set to be on the agenda for the Town meeting on Saturday. Mr. Lakso drafted a summary of the project to be handed out at Town meeting for anyone who wanted to learn more.

The remainder of the commission's budget will have to be used by July or it will be lost. Some ideas for projects to utilize the remaining budget include historical markers for important people, structures, sites or events.

A \$25 bill from the Lunenburg Ledger from the public notice of the Proctor demolition was voted to be paid.

With the demise of 30 School street underway, attention shifted to the state of the town hall and the Ritter building. One plan would be to add an annex to the Ritter building to make it more suitable for use as public offices. It is also planned to have it added to the national historic registry.

Also notable is the condition of the steeple at 50 Main St which has fallen into disrepair.

With no further business to discuss, the meeting was adjourned at 7:28.
